GACIRON®

BIKE LIGHT WITH HORN

User Manual

V18-200

⚠ WARNING

- * Please charge the product at the environmental temperature from 5 to 40 degrees Celsius;
- * Please check whether the charging cable is good before charging;
- * When charging, please use the 5V USB power adapter;
- * After charging, be sure to unplug the charging connector;
- * Please do not charge, discharge or store in the hot environment, otherwise it will accelerate the aging of the battery; Please store the fully charged headlights in a cool and dry place;
- * After the correct charge, if the battery life gets shorter and shorter, it means that the rechargeable battery has reached the end of the effective service life. Please replace the battery at the local maintenance point and properly dispose of the waste rechargeable battery according to local regulations;
- * This product should be charged once every 3 months without use, so as not to cause damage to the battery and resulting in unusable condition;
- * Please do not stare at the light when it is just turned on to avoid damaging the eyesight;
- * Please do not turn on the horn close to the ears.
- * After the light is used for a long time, please do not touch the light to avoid getting scald.
- * Children are forbidden to use without adults' supervision.

1. PRODUCT INSTRUCTION

2. INSTALLATION

① Mount the bracket to the handlebar as below picture, and tighten the nut.

② Slide the bottom of the bike light with horn into the bracket. When you hear a "click" sound, the installation is completed. Please adjust the light angle.

3. INSTALLATION OF REMOTE CONTROL

Paste the anti-slip sticker on the back of the wire remote control. Open the Type-C rubber plug at the bottom of the light, insert the wire remote control into the light in place. Tie the remote control firmly to the handlebar at appropriate position. (Press the remote control to ring the horn, which works the same way as flick forward the toggle lever)

4. CHARGING

Uncover the Type-C rubber plug at the bottom of the light, plug in the Type-C charging cable and connect the charging device. When the button battery indicator flashes in red, the charging starts. When it is fully charged, the battery indicator turns blue.

 - (3)Damages or accidents or injuries caused by user's independent operation against the manual or, using other materials on the product which causes malfunction.
- 6.Wherever you purchase this product, you have the total access to equivalent services from the nearest customer service center, if the problem is not solved to your satisfaction, please make a phone call to us or email to our customer service department.
7. The right of modification and interpretation on the above terms is held.

5. OPERATION AND FUNCTION

Turn On/Off: Long press the power button for 0.75 seconds.

Change Modes: Short press the power button (50 lm constant -100 lm constant - 200 lm constant - 200 lm flash - cycle).

Control Mode	Working Mode	Running Time
On / Off Switch	High Steady 200 lm	≈2.5 hrs
	Medium Steady 100 lm	≈5 hrs
	Low Steady 50 lm	≈10 hrs
	High Flash 200 lm	≈15 hrs
Toggle lever	No.1 Horn Sound+Flash 200 lm	≈13000 Times
	No.2 Horn Sound+Flash 200 lm	≈15000 Times
	No.3 Horn Sound+Flash 200 lm	≈15000 Times
	No.4 Horn Sound+Flash 200 lm	≈5000 Times

Volume Adjustment: Long press the power button for 3 seconds, it triggers the horn to ring. When the indicator light turns purple, it enters the volume adjustment mode. Flick forward the toggle lever to increase the volume by one gear until maximum volume and it triggers the horn. Flick backward the toggle lever to reduce the volume for one gear until minimum volume and it triggers the horn. The volume adjustment is confirmed with the current volume by single pressing the power button or without operation for 2 minutes. (There are 5 gears of volume).

Toggle Lever: Flick forward in any status to trigger horn + flashing. Flick backward for 2 seconds will change the sound of the horn. Without the operation of flicking forward, each operation of flicking backward is to select the sounds and the selection is confirmed by flicking forward or without operation for 2 minutes.

With memory function (Default restore to the mode used previously when turning on).

Remaining Battery	Indicator Color
100-21%	Blue
